

PONTUS CURTSSON

pontuscurtsson@gmail.com · +46 72 205 5232 · github.com/pontusc

PROFILE

I'm a DevOps Engineer who believes the best technology emerges from great teamwork and continuous learning. With a diverse background spanning VR development to Kubernetes orchestration, I bring both technical expertise and a collaborative mindset to every challenge. Currently deepening my knowledge through formal DevOps studies while experimenting with cutting-edge tools in my personal homelab.

I'm passionate about creating reliable, scalable solutions and thrive in environments where I can both contribute meaningfully and grow alongside innovative teams.

EDUCATION

DevOps Chas Academy	2024 - 2026 Stockholm
Computer Science Royal Institute of Technology (KTH)	2016 - 2019 Stockholm

TECHNICAL SKILLS

Languages: C#, Java, Python, Bash, SQL, C++, Go, C, Lua
Tools: Git, Linux, Docker, GitHub Actions, GitLab Pipelines, Kubernetes, ArgoCD

PROJECTS

Homelab K8s, Helm, Docker, GitHub Actions, ArgoCD, Incus

A homelab kubernetes deployment running on 3 nodes (virtualized) for me to test new tools and learn about server management, networking and kubernetes GitOps. All relevant documentation can be found in this repository or via my GitHub.

Dotnet App GitLab CI, Docker, Portainer

A course project to build and deploy a dotnet app using a React frontend and a Dotnet backend, deployed using portainer. See this folder and repository for relevant pipelines and build tools.

DEVELOPER - IT

Developer <i>T3C Consulting AB</i>	2022 - 2024 Remote
--	-----------------------

- Various small scripts for excel and automation
- IT-problemsolving, both software & hardware
